**BUREAU COUNTY E9-1-1
MODIFIED NARRATIVE STATEMENT**

Purpose: To modify the existing Bureau County Enhanced 9-1-1 (E9-1-1) System to;

1. Consolidate all 9-1-1 call-answering operations from the two existing primary PSAPs at the Bureau County Sheriff's Office and the Spring Valley Police Department to a new state-of-the art facility located at 615 Elm Place, Princeton, IL 61356-1464. The name of the new facility will be "Bureau Emergency Communications" or "**BuEComm**".
2. Transition the two existing primary PSAPs at the Bureau County Sheriff's Office and the Spring Valley Police Department to "Secondary" PSAPs for the transfer and dispatch of all 9-1-1 calls requiring a law enforcement response.
3. Assign all fire, EMS, and EMD dispatch responsibilities from the two existing primary PSAPs at the Bureau County Sheriff's Office and the Spring Valley Police Department to the new primary PSAP (**BuEComm**) at 615 Elm Place, Princeton, IL 61356-1464.
4. Establish an interagency agreement (attached hereto) between the Bureau County ETSB and the Putnam County ETSB whereby the Putnam County Enhanced 9-1-1 PSAP located at the Putnam County Sheriff's Office, 120 N 4th Street, Hennepin, IL 61327, agrees to serve as the backup PSAP for the new Bureau County Enhanced 9-1-1 PSAP (**BuEComm**).
5. Provide for the Bureau County ETSB to "opt out", by virtue of agreement attached hereto, approximately 13 Bureau County residents of the Verizon Putnam Telephone Exchange (NXX 437) to the Putnam County ETSB. These lines have been answered by Bureau County since the inception of Enhanced 9-1-1 service in Bureau County, but will be "opted out" to Putnam County upon implementation of the Putnam County Enhanced 9-1-1 System. This modification will not alter the square mileage of the Bureau County E9-1-1 jurisdiction as all of the "opted" customers reside in Bureau County.

Discussion: None of the modifications presented here will (to any degree) alter the existing jurisdictional dispatch boundaries established in the original Bureau County ETSB application, nor will they alter the make-up of participating and/or adjacent agencies. Further, with the exception of the modification listed in paragraph 5 under "purpose" (above), none of the modifications will (to any degree) alter the 9-1-1 call-taking jurisdiction of the Bureau County ETSB.

Configuration: The new Bureau Emergency Communications (**BuEComm**) PSAP will be fully enhanced providing instantaneous automatic number identification (ANI) and automatic location identification (ALI). Call-transfer to the two secondary PSAPs will be via direct (one-button) voice/data transfer via the on-site Rescue Star Comm-node. Uninterrupted power is supplied by UPS MGE Galaxy 3000 10kva 240 minutes, backed-up by facility-wide, automatic start/transfer, generator power. Each telecommunicator position will be fully TTY functional, with one portable

back-up TTY available. The PSAP will have the capability to dispatch all public safety agencies. Calls will automatically overflow to Putnam County in the event of a "PSAP busy" situation, and unanswered calls will overflow after three rings.

Security: The new PSAP will employ three levels of security (see attached diagram), with the first level allowing public access from the outside to a security foyer (level 1 security). Unescorted entry to the business/administrative areas of the facility (level 2 security) will be controlled by proximity card reader, and will be limited to ETSB members and BuEComm staff. Both level 2 access doors will be under surveillance by closed-circuit television, allowing visitors to request access via intercom and automatic door strikes actuated by the telecommunicator(s) on duty. Unescorted entry to the PSAP Operations area of the facility (level 3 security) will be controlled by proximity card reader backed-up by a secondary requirement for a Personal Identification Number (PIN), and will be limited to BuEComm staff only. The level 3 access door will be under surveillance by closed-circuit television, allowing visitors to request access via intercom and automatic door strike actuated by the telecommunicator(s) on duty. The entire facility is constructed of reinforced 8" concrete block with a brick exterior facade. The interior wall separating the level 2 and level 3 security areas is also reinforced 8" concrete block from the floor to the roof deck, allowing no public access of any kind.

Alan T. Dale
Chairman
Bureau County ETSB

 VERIZON PROPRIETARY INFORMATION ONLY RELEASE TO ETSB OFFICIALS AND THE ILLINOIS COMMERCE COMMISSION.
 03/29/05 - Updated Diagram, added new Primary PSAP and Back Up, for modification.

FOR 9-1-1 EMERGENCY COMMUNICATIONS

This agreement is made between the Bureau County Emergency Telephone System Board and the Putnam County Emergency Telephone System Board to ensure the effective handling and routing of 9-1-1 emergency calls for Bureau County. In general, all overflow or backup 9-1-1 calls from Bureau County will be routed to the Sheriff's Office Public Safety Answering Point (PSAP) that serves Putnam County. Should the Bureau Emergency Communications (BuEComm) PSAP be unable to accept 9-1-1 calls for any reason, emergency 9-1-1 calls from within the area served by Bureau County will be sent to the Putnam County PSAP via the Verizon 9-1-1 system router.

CALL HANDLING

Emergency 9-1-1 calls from within the area served by Bureau County shall be dispatched directly from the Putnam County PSAP to the BuEComm PSAP via one of the following methods:

Primary: Point to Point Radio (155.370 MHz) - Putnam County Sheriff to BuEComm

Secondary: Call Relay via telephone (815-872-1420)

The Putnam County PSAP hereby agrees to receive and properly dispose of all said related 9-1-1 calls from within the Bureau County jurisdiction, following the Standard Operating Procedures established by the Putnam County ETSB and the rules and regulations established by the Illinois Commerce Commission.

AID OUTSIDE JURISDICTIONAL BOUNDARY

Once an emergency unit is dispatched in response to a request through the 9-1-1 system, such unit shall render its service to the requesting party without regard to whether the unit is operating outside of its normal jurisdictional boundaries.

The legislative intent is that 9-1-1 be used for emergency calls only. Therefore, all calls of an administrative or non-emergency nature shall be referred to your agency's published telephone number.

The PSAP Center agrees to keep all records, times, and places of all calls. All records will be available to all participants of the 9-1-1 System.

It shall be the responsibility of your agency to maintain the report of the call and the disposition of each call received.

All agreements, management, records, and service will be the responsibility of the advisory and policy board.

CERTIFIED BY AND BETWEEN

Putnam County Emergency Telephone System Board

BuEComm

BUREAU EMERGENCY COMMUNICATIONS

Date: April 27, 2006

Purpose: To Enhance County to County E9-1-1 Emergency Communications.

This call-handling agreement is made between the Public Safety Answering Point, hereinafter referred to as "PSAP", for Bureau Emergency Communications (BuEComm) and the Putnam County Emergency Telephone System Board, hereinafter referred to as "ETSB", for the purpose of effective handling and routing of 9-1-1 Emergency calls.

Bureau County ESN #564

Police: Bureau County Sheriff's Office

Fire: Tiskilwa Fire Department

EMS: Tiskilwa Ambulance Service

There are approximately thirteen (13) residences located in Bureau County that are within the Putnam exchange of Verizon. If any of the 13 residents request emergency services through 9-1-1, for the convenience of the two systems, it is desirable that the Putnam County PSAP take the request and then contact the BuEComm PSAP for dispatching the request. Either of the two methods listed below may be used:

Call Handling (Exhibit 8)

The Putnam County PSAP receiving the call for emergency services in Bureau County shall relay the call in the following manner:

- Primary: Direct (one-button) voice/data transfer via the Verizon
Bloomington selective router
- Secondary: Call Relay via telephone (815-872-1420), or via Point to
Point Radio (155.370 MHz) – Putnam County Sheriff to
BuEComm

Aid Outside Jurisdictional Boundary (Exhibit 9)

Once an emergency unit is dispatched in response to a request through the 9-1-1 system, such unit shall render its service to the requesting party without regard to whether the unit is operating outside of its normal jurisdictional boundaries.

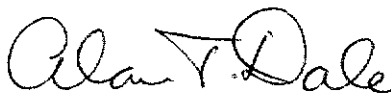

The legislative intent is that 9-1-1 be used for emergency calls only. Therefore, all calls of an administrative or non-emergency nature shall be referred to your agency's published telephone number.

The PSAP Center agrees to keep all records, times, and places of all calls. All records will be available to all participants of the 9-1-1 System.

It shall be the responsibility of your agency to maintain the report of the call and the disposition of each call received.

All agreements, management, records, and service will be the responsibility of the advisory and policy board.

BuEComm

BUREAU EMERGENCY COMMUNICATIONS

Date: April 27, 2006

For 9-1-1 Emergency Communications

This agreement is made between the Bureau Emergency Communications (BuEComm) Public Safety Answering Point, hereinafter referred to as "PSAP", and the Bureau County Sheriff's Office for the purpose of effective handling and routing of 9-1-1 emergency calls.

CALL HANDLING

The BuEComm PSAP receiving a call for emergency services in your jurisdiction shall dispatch the call in the following manner:

Primary: Direct (one-button) voice/data transfer via the Verizon Bloomington selective router

Secondary: 151.325 MHz (Countywide 9-1-1 law enforcement channel)

AID OUTSIDE JURISDICTION BOUNDARY

Once an emergency unit is dispatched in response to a request through the system, such unit shall render its service to the requesting party without regard to whether the unit is operating outside its normal jurisdictional boundaries.

The legislative intent is that 9-1-1 be used for emergency calls only. Therefore all calls of an administrative or non-emergency nature shall be referred to your agency's published telephone number.

The PSAP agrees to keep all records, times, and places of all calls. All records will be available to all participants of the 9-1-1 system.

It shall be the responsibility of your agency to maintain the report of the call and the disposition of each call received.

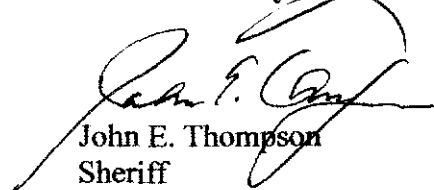

All agreements, management, records, and service will be the responsibility of the advisory and policy board.
